

10 times table (A)

$0 \times 10 = \underline{\quad}$

$1 \times 10 = \underline{\quad}$

$2 \times 10 = \underline{\quad}$

$3 \times 10 = \underline{\quad}$

$4 \times 10 = \underline{\quad}$

$5 \times 10 = \underline{\quad}$

$6 \times 10 = \underline{\quad}$

$7 \times 10 = \underline{\quad}$

$8 \times 10 = \underline{\quad}$

$9 \times 10 = \underline{\quad}$

$10 \times 10 = \underline{\quad}$

$11 \times 10 = \underline{\quad}$

$12 \times 10 = \underline{\quad}$

$3 \times 10 = \underline{\quad}$

$11 \times 10 = \underline{\quad}$

$0 \times 10 = \underline{\quad}$

$7 \times 10 = \underline{\quad}$

$10 \times 10 = \underline{\quad}$

$1 \times 10 = \underline{\quad}$

$4 \times 10 = \underline{\quad}$

$6 \times 10 = \underline{\quad}$

$12 \times 10 = \underline{\quad}$

$2 \times 10 = \underline{\quad}$

$8 \times 10 = \underline{\quad}$

$9 \times 10 = \underline{\quad}$

$5 \times 10 = \underline{\quad}$

$7 \times 10 = \underline{\quad}$

$11 \times 10 = \underline{\quad}$

$3 \times 10 = \underline{\quad}$

$2 \times 10 = \underline{\quad}$

$8 \times 10 = \underline{\quad}$

$4 \times 10 = \underline{\quad}$

$6 \times 10 = \underline{\quad}$

$0 \times 10 = \underline{\quad}$

$12 \times 10 = \underline{\quad}$

$9 \times 10 = \underline{\quad}$

$1 \times 10 = \underline{\quad}$

$5 \times 10 = \underline{\quad}$

$10 \times 10 = \underline{\quad}$

$\underline{\quad} \times 10 = 40$

$\underline{\quad} \times 10 = 110$

$\underline{\quad} \times 10 = 50$

$\underline{\quad} \times 10 = 10$

$\underline{\quad} \times 10 = 30$

$\underline{\quad} \times 10 = 100$

$\underline{\quad} \times 10 = 20$

$\underline{\quad} \times 10 = 90$

$\underline{\quad} \times 10 = 80$

$\underline{\quad} \times 10 = 0$

$\underline{\quad} \times 10 = 70$

$\underline{\quad} \times 10 = 120$

$\underline{\quad} \times 10 = 60$

$\underline{\quad} \times 10 = 0$

$\underline{\quad} \times 10 = 120$

$\underline{\quad} \times 10 = 70$

$\underline{\quad} \times 10 = 80$

$\underline{\quad} \times 10 = 90$

$\underline{\quad} \times 10 = 10$

$\underline{\quad} \times 10 = 50$

$\underline{\quad} \times 10 = 100$

$\underline{\quad} \times 10 = 20$

$\underline{\quad} \times 10 = 40$

$\underline{\quad} \times 10 = 60$

$\underline{\quad} \times 10 = 30$

$\underline{\quad} \times 10 = 110$

$\underline{\quad} \times 10 = 70$

$\underline{\quad} \times 10 = 120$

$\underline{\quad} \times 10 = 80$

$\underline{\quad} \times 10 = 110$

$\underline{\quad} \times 10 = 0$

$\underline{\quad} \times 10 = 100$

$\underline{\quad} \times 10 = 90$

$\underline{\quad} \times 10 = 20$

$\underline{\quad} \times 10 = 60$

$\underline{\quad} \times 10 = 10$

$\underline{\quad} \times 10 = 50$

$\underline{\quad} \times 10 = 40$

$\underline{\quad} \times 10 = 30$
